TOO TOXIC TO TRASH

Know Your HHW/E-Waste — Household hazardous waste is any product labeled toxic, poisonous, corrosive, flammable, combustible or irritant. Electronic Waste is any electronic device such as a TV, cell phone, electronic game, microwave, computer and a small household appliance.

How to Reduce Household Hazardous Waste

1. Buy Smart

Purchase non-toxic or less hazardous products and only purchase the amount you need.

For alternative non-hazardous recipes visit: pw.lacounty.gov/epd/hhw/alternative_recipes.pdf

2. Use It Up

Finish all products and recycle the containers or donate what is leftover.

3. Store Properly

Toxic products are poisonous - store them in a box until ready for disposal.

Keep products out of reach of children and pets.

Paint Recycling Made Convenient

California residents and businesses can now recycle leftover paint for free at local retail stores.

For program details and locations, visit PaintCare.org or call (855) 724-6809.
